leave me alone  
leave me alone my dear  
and don't call on the phone  
i will not answer oh no  
leave me alone  
leave me alone up here  
in this world of my own  
where i feel safe and at home

call me astronaut  
i am ready for take off  
all systems are go  
astronaut i say goodbye  
forever you know

wide open space  
wide open space i need  
here the air is quite thin and  
there's no light getting in

call me astronaut  
count three-two-one lift off  
all systems are go  
astronaut i say goodbye  
to my friends and foe

dancing on a sunbeam  
riding on a jet stream  
loving if we only could  
dancing on a moonbeam  
drifting in a daydream  
leaving never felt so good

wide open eyes  
wide open eyes i need  
as i stare into space  
it is your picture i face  
wide open eyes  
wide open eyes can't see  
where we lost our way and  
where our love went astray

bridge  
chorus

leave me alone  
leave me alone up here  
in this world of my own  
wish you were here
