It's good talking to you
You know where I'm coming from
And what I'm trying to do
Ooh ooh ooh
Although what you say ain't always so true

It's good drinking with you
We're just drowning our sorrows
But what else can we do?
Ooh ooh ooh
We just need a little help to get through

You're the one and only dear loraine
You're the one and only who keeps me sane
Again and again

It's good laughing with you
Although your jokes are all crap
But somehow they still ring true
Ooh ooh ooh
When I laugh you can't see I'm crying too

You're the one and only dear loraine

You're the one and only who soothes my pain
Again and again

We're dreaming the same dream
Surviving the rat race inbetween
We're reaching for sunbeams
Two beautiful losers
On the scene

It's good fighting with you
Get it out of my system
Feel alive and brand new
Ooh ooh ooh
But still I don't have a single clue

You're my one and only sweet loraine
You're my one and only long lost friend
Hey let us pretend

Chorus (repeat)
