Visit "[Queen Of Inbetween](#)" on MotoLyrics.com

I don't feel as if I ever missed you
And all the things that we have been
I don't feel as if I ever knew you
Mighty queen of inbetween

But let me know
When you're around
It seems a bit ridiculous
But I'm still curious

Have you changed a lot
More than a bit
Are you still the riot girl
Who made my heart a whirl

It seems so long ago

I don't feel as if I ever missed you
And all the things that we have been

I don't feel as if I ever knew you
Mighty queen of inbetween
I wish you'd know

You just needed me
When no one was there
You always said that it depends
On your illustrious friends

And you took from me
What you could get
And I felt lonely all the time
It didn't work out fine

For both, both of us
