

Lovedrug "Dead In The Water"

Visit "[Dead In The Water](#)" on MotoLyrics.com

A million jigs saw piece
Puzzle coming your way
I'm like a TV picture
Preaching while I'm waiting to hang.
A thousand cross word questions
And a kissing booth
I'm like a bird flying underwater seeking the truth

Who just got born and already bored
With an ordinary life with extraordinary problems
I might be down but I'm not dead in the water
Its were I've found that
There is no relief when all you want to feel is love
Yeah I Might be down but I'm not dead in the water
I know some how there is relief
When all you ever need is is love

I am a house metal bonds with a lightning rod
You are a changeless charging up the battery shock
I am a cold one kicking in the silent choir
You're like a drunk dial queen who can walk in the fire
Who just got born and already bored
An ordinary guy with extraordinary problems
I might be down but I'm not dead in the water
Its were I've found that
There is no relief when all you want to feel is love

Yeah I might be down but I'm not dead in the water
I know some how
That there is some relief when all you ever need is love
All you ever want is want is love

I might be down but I'm not dead in the water,
I might be down
I might be down but I'm not dead in the water,
I might be down
I might be down but I'm not dead in the water.
