Got sick and we cut our lips on universal truth
Got tired of askin' you to help me tie my noose
I'm a bad dream, I'm a wet dream

She's a chip off the block, he's a bucket of bones
We're the semen that comes out way too fast
Just a-hangin' around, just a-waitin' to die
We're all suckers in the same damn Sucker Punch Show
Everyone needs a halo, everyone needs a halo

Got sick of the angel on my shoulder catchin' fame
Got tired of the conscience on my back who takes the
blame
I'm a bad dream, I'm a wet dream

She's a chip off the block, he's a bucket of bones
We're the semen that comes out way too fast
Just a-hangin' around, just a-waitin' to die
We're all suckers in same damn Sucker Punch Show
Everyone needs a halo, everyone needs a halo
Everyone needs a halo, everyone needs a halo

Cool hair, nice shoes
Got plenty for all, nobody can lose
Got style, nice car
You're a hole in my head
And that's all that you are
