"Ladders"

Hail the sun
And all this glory
The radios on
It's playing your favorite song
I wish you hadn't died last night
I cannot bring you back
So can I come along

This age is carousel
I remember all the horses
I forget all of their names
Your stage was full of lights
Took the costumes out the basement
And you brought them all to life

Hail the sun
And all this glory
The radios on
It's playing your favorite song
I wish you hadn't died last night
I cannot bring you back
So can I come along

From these ladders that
Your climbing on

Ill build your diamond Dream
From the ashes of the pavements
That wound up to your house

Hail the sun
And all this glory
The radios on
It's playing your favorite song
I wish you hadn't died last night
I cannot bring you back
So can I come along

I cannot bring you back
From these ladders

That you're climbing on

This is ok look down
I'm in the apple orchard
That we found
Back in the fall
Baby your right at night
I'm a wreck without you
Keeping me so warm
I better perform

Hail the sun
And all this glory
The radios on
It's playing your favorite song
I wish you hadn't died last night
I cannot bring you back
So can I come along

I cannot bring you back
From these ladders
That you're climbing on
