Brother, what have you done?
Sticking needles in your arm
Brother
Never said we'd walk
Away from family
These so called friends
They kept pushing you in
I hate my love for you
But you cared for me so I cared for you
Brother oh will you come home
You've hit the ground so hard
It's breaking me, breaking me, down
Brother brother oh we make a stand
You've hit the ground so hard
So take my hand
You said yourself you were done with this
I believed you, it's the trust I miss
When my eyes wanted to lie
Well I am your friend
Talk to me, tell me anything
I love you despite everything
This is family
Brother oh will you come home?
You've hit the ground so hard
It's breaking me, breaking me down
Brother brother oh we make a stand
You've hit the ground so hard
So take my hand
This means everything to me
This means everything... to me
(Crazy scream super fast amazing)
(Amazing solo by I'm presuming "the shredder")
Brother... oh will you come home
You've hit the ground so hard
It breaks my heart
Brother oh will you come
You've hit the ground so hard
So take my hand...
