A long time ago  
I lost all self control  
I pushed you away  
I thought you were to blame

I was wrong  
I was wrong  
But it's your time, my time

And now here we are  
Forgiveness in your heart  
Right or wrong  
Second chance  
Carry on  
Make it last

Well it's your time, my time  
We all get together and we fly  
And I see my life through your eyes  
Live this way forever by your side

This is the speed of sound  
Want my life to slow down  
Put my feet back on the ground

Well it's your time, my time  
We all get together and we fly  
I see my life through your eyes  
Live this way forever by your side

Well it's your time, my time  
We all get together and we fly  
I see my life through your eyes  
Live this way forever by your side

Well it's your time, my time  
Well it's your time, my time  
Well it's your time, my time  
I will be right by your side
