"From A Tower"

Close your eyes
Rest well tonight
You can try your luck tomorrow

Take your time
I have lots of time
Coming my way

I will be drinking from a fire
I catch a wave from a tower
I hold a flag from a mountain
I'll make a sign I'm alive
I know it will be all right

Make believe the world is listening
Pretend there's a feeling that you will miss

Take my life
I have many lives
Coming my way

I will be drinking from a fire
I catch a wave from a tower
I hold a flag from a mountain
I'll make a sign I'm alive
I know it will be all right

Follow me to somewhere you can be
Do you know the message that you're searching?

Hold your breath
It will come easily
Dancing your way

We could be drinking from a fire
We catch a wave from a tower
We hold a flag from a mountain
Where it can burn much brighter

Oh, take me out to the outside
Oh, pull me in from the water
I'll hold a flag from a mountain

I'll make a sign I'm alive
I know it will be all right

I'm a light, from a tower
Coming down, from a tower
I'm a light, from a tower
Coming down, from a tower

I'm a light, from a tower
Coming down, from a tower
I'm a light, from a tower
Coming down, from a tower

I'm coming down
I'm coming down
I'm coming down
I'm coming down
I'm coming down
I'm coming down
I'm coming down
I'm coming down
