Such careless shapes draped over me
I should relay, it's not a place I want to go
My knees grow weak thinking about what can't describe
me
All these words that I've already learned to ignore

Just on a night like this, a beautiful day is born
Don't waste your life on anyone
Remember to realize forever is for a while
Find your own way back to the center, now

The form replays over again in context, 'til I change
What makes me feel this way
My conscience lies inside a permanent disguise
So I can hide
My weaknesses, that's what I do best

Just on a night like this, a beautiful day is born
Don't waste your life on anyone
Remember to realize forever is for a while
Find your own way back to the center, now

Just on a night, a beautiful day
Find your own way back to the center

I can't save you
I can't save you
I can't save you
I can't save you
