Don't want a bleeding conversation  
Just lead a simple life  
A permanent pain to get me through the night

We won't grow today  
We won't try  
We won't try  
We won't fly away

Where'd you learn to be so down  
Taking chances like you know  
Can't you ever learn the rules?  
It's killing everything you do  
It's killing everything you do

It's a call into the night  
Make believe in for a sign [???)  
It's a reason for believing  
We are fine; we will try

We won't grow today  
We won't try  
We won't try  
We won't fly away

Where'd you learn to be so down  
Taking chances like you know  
Can't you ever learn the rules?  
It's killing everything you do  
It's killing everything you do  
It's killing everything you do

Do you know you're not okay?  
Do you know your secrets?  
How do you wake with an ache,  
With a momentary shake?  
You're never alone  
You're never alone  
You're never alone
