Hawaaoooooooooooo hawaaoooooooooooo  
Hawaaoooooooooooo hawaaoooooooooooo  
Well I'm trapped on a roller coaster  
And they won't let me go so it's totally bogus  
And every single day it gets colder, colder  
'Till my mood get low like below the sofa  
Can somebody tell me where to go?  
Somewhere far away where it can't go wrong  
There's way too many snakes on this globe  
Now everybody sing it, everybody sing it  
We created a monster, created a monster  
But nobody wants some, but nobody wants some  
Created a monster, created a monster  
But nobody wants to kill it  
So long  
But since there's nowhere to go (nowhere to go)  
I guess I'll be on the road (goodbye)  
Wherever my soul will go (so long)  
Goodbye, so long  
(Where you goin?)  
Outer-spa-yaa-yaa-yaaace  
Outer-spa-yaa-yaa-yaaace  
Outer-spa-yaa-yaa-yaaace  
Goodbye, so long  
To get where I am I can give you directions  
I'm in the future I can get with the Jetsons  
I need to leave someone give me suggestions  
Man elections, the whole planets infected  
Uh, call the doctor I could use some direction  
Uh, call the reverend I could make a confession  
Built just like a subatomic nuclear weapon  
Everybody say it, everybody say it  
We created a monster, created a monster  
But nobody wants some, but nobody wants some  
Created a monster, created a monster  
But nobody wants to kill it  
So long  
But since there's nowhere to go (nowhere to go)  
I guess I'll be on the road (wazzup?)  
Wherever my soul will go (that's what I thought)  
Goodbye, so long  
(Where you goin?)

Outer-spa-yaa-yaa-yaaace  
Outer-spa-yaa-yaa-yaaace  
Outer-spa-yaa-yaa-yaaace  
Goodbye, so long  
(AHHHHHH Everybody sing it, everybody sing it, I said  
everybody sign it, sing it)  
We created a monster, created a monster  
But nobody wants some, but nobody wants some  
Created a monster, created a monster  
But nobody wants to kill it  
So long  
But since there's nowhere to go (nowhere to go?)  
I guess I'll be on the road (on the road  
Wherever my soul will go (haha)  
Goodbye, so long  
(Where you goin?)  
Outer-spa-yaa-yaa-yaaace  
Outer-spa-yaa-yaa-yaaace  
Outer-spa-yaa-yaa-yaaace  
Goodbye, so long
