Words and Music: Paul Dean, Bryan Adams, Todd Carney, Taylor Rhodes

We're gonna break away  
The engine's hot and running  
We'll take this nowhere town  
And turn it into something  
We're gonna lose control  
And set the wheels in motion  
Well, we're stoking our claims  
Yeah, they'll remember our names

Going down in a blaze of glory  
Going out in a flash of light  
You know it goes with the territory  
When you run the night

You want to be a hometown hero  
And nothing's standing in your way  
Take it all the way from zero  
Never fade away

Now you and I can make it happen  
Show you what it's all about  
We'll take the night  
And turn it inside out... yeah... inside out

They say that eagles dare  
While others only follow  
You've got to raise the stakes  
And bet against tomorrow  
Storm the barricade  
And cross that line of fire  
When the damage is done  
You know, the legend lives on

Going down in a blaze of glory  
Going out in a flash of light  
You know it goes with the territory  
When you run the night

You want to be a hometown hero

And nothing's standing in your way  
Take it all the way from zero  
Never fade away

Now you and I can make it happen  
Show you what it's all about  
We'll take the night  
And turn it inside out... look out

(Solo)

You want to be a hometown hero  
Nothing's standing in your way  
Take it all the way from zero  
Never fade away  
Now you and I can make it happen  
We'll show you what it's all about  
We'll take the night  
And turn it Inside out... oh yeah

Well, you want to be a hometown hero  
We'll turn it inside out  
You want to be a hometown hero  
We'll turn it inside out  
You want to be a hometown hero

Yeah
