"Lost With You"

Visit "[Lost With You](#)" on MotoLyrics.com

I couldn't wait to see your face
I needed a familiar place
I got lost along the way

I've been around a million miles
But it's no good without your smile
You've got to know I'm still a little while, yeah

[Chorus]

I, I know what I want to do
I want to be lost again
But this time I want to be lost with you, lost with you
I've, I've got everything to lose
I would do anything I had to do to be lost with you, lost
with you

You, you were always on my mind
And you stood the test of time
From where I stand you look so fine, so fine
You, you were always there for me
Even when I could not see
Waiting here so faithfully, whoa

[Chorus]

I, I know what I want to do
I want to be lost again
But this time I want to be lost with you, lost with you
I've, I've got everything to lose
I would do anything I had to do to be lost with you, lost
with you

So, don't stop believing
This time no one's leaving
I ain't going nowhere
If you want to take me
Come on baby break me
This time you're in the show

[Chorus]

I, I know what I want to do
I want to be lost again

But this time I want to be lost with you, lost with you
I've, I've got everything to lose
I would do anything I had to do to be lost with you, lost
with you

So, don't stop believing
This time no one's leaving
I ain't going nowhere
Lost with you, lost with you
If you want to take me
Come on baby break me
This time you're in the show
Lost with you, lost with you
