An empty night, how does it feel so full again
It's in your eyes, and those two eyes are how I end up
falling
Heart starts to pound, to be in your arms now,
I know that life's just begin

Yes, I'll say yes, take a breath
And fall for the rest of my life
I'll be the one by your side
As I'm falling, keep falling for you

The brightest band, the greatest day, the perfect plan
So take my hand, oh take my hand
And we'll just keep on falling, our hearts are pounding,
And eyes are locked in,
And then our lives will begin

Yes, I'll say yes, take a breath
And fall for the rest of my life
I'll be the one by your side
As I'm falling, keep falling for you
I'm falling, keep falling for you

Falling over and over again
Every night after night after night
I will love you with all that I am
I will love you the rest of my life
Falling over and over again
Growing deeper and deeper for you
If you love for me for all that I am
It's all that I ask of you
And it's all that I'll ask of you

Yes, I'll say yes, take a breath
And I'll fall for the rest of my life
I'll be the one by your side
As I'm falling, keep falling for you
Falling, I'm falling for you
