I questioned my fate  
Wasn't sure about my place

But no one gets blamed in this game

No need to feel afraid  
My fears dissolved the day you came

One will, one love  
One beat of separate hearts  
We share the moon, we share the stars  
And nothing will change

This will, this love  
This beat won't let us apart  
I'll be right here, I'll heal your scars  
And nothing will break  
One will, one love...

No power, no grace  
No footsteps to trace

'Cause no one is losing this game

I won't deny the pain  
My hurt vanished the day you came

One will, one love  
One beat of separate hearts  
We share the moon, we share the stars  
And nothing will change

This will, this love  
This beat won't let us apart  
I'll be right here, I'll heal your scars  
And nothing will break  
One will

And it's one reach, it's one belief,  
It's a dream that we both need,  
To carry on,

To survive through the dawn

One will, one love  
One beat of separate hearts  
We share the moon, we share the stars  
And nothing will change

This will, this love  
This beat won't let us apart  
I'll be right here, I'll heal your scars  
And nothing will break  
One will, one love...
