Again I close my eyes  
Cause it's hard to see that I'm  
Losing my prime  
My actions feed your lies  
And the truth begins to fade  
Become so vague

Lift me up  
Don't force me down  
I've already been in the bottom  
I've walked through the gates of sorrow  
Lift me up  
Don't force me down  
I've opened my scars  
With all the faults that I've got

Save me, just save me from myself  
Save me and save the life we share  
Cause I'm nothing without you  
And that's why I'm asking  
Save me, just save me from myself  
I didn't want to do you wrong  
Cause I'm nothing without you  
Just save me

Lead me to the road  
Guide me to your heart  
Don't send me away

Lift me up  
Don't force me down  
I've already been in the bottom  
I've walked through the gates of sorrow  
Lift me up  
Don't force me down  
I've opened my scars  
With all the faults that I've got

Save me, just save me from myself  
Save me and save the life we share  
Cause I'm nothing without you

And that's why I'm asking  
Save me, just save me from myself  
I didn't want to do you wrong  
Cause I'm nothing without you  
Just save me

Lift me up  
Don't force me down  
Lift me up

Save me, just save me from myself  
Save me and save the life we share  
Cause I'm nothing without you  
And that's why I'm asking  
Save me, just save me from myself  
I didn't want to do you wrong  
Cause I'm nothing without you  
And that's why you gotta save me
