"Shout"

Visit "[Shout](#)" on MotoLyrics.com

I have pulled every string
But nothing is moving
We have whispered the words
That noone is listening, anymore

There's no time to save me

Shout it out
Before you let it come to this
As future's all I miss
And all we live for (x2)

I've tried all my keys
But none of them opens the door
We've tried to fool the gods
But we are to vain to hide our mistakes

There's no time to save me

Shout it out
Before you let it come to this
As future's all I miss
And all we live for (x2)

Shout it out
Before you let it come to this
As future's all I miss
And all we live for (x2)
