I open my eyes, only to see  
Just how sad this world could be  
That I often cry alone... ohh

I look at the sky, longing to see  
There's a chance out there for me  
For my heart to be set free

[refrain]  
My friends had say that it's ok  
When rainbow's fade in clouds of gray  
But in my heart I know someday  
True happiness will come my way

[chorus]  
I never knew love till I found you  
It's magic in your smile  
Never knew love till I saw you lookin' in my eyes

And suddenly our sadness disappears  
True love has finally shown its smilin' eyes on me

I'm searching the skies hopin' to see  
If there's someone out there for me  
Who will set my poor heart free

[repeat refrain]

[repeat chorus]

No ones believe that love was just a fairytale  
But each time you hold me  
Those fairytales come true... on you

[repeat chorus]
