The levee's breaking  
Feel it shakin' like the dirt

All the kids are sleeping  
Silent dreams beneath their heads  
Go to wake up screamin'  
Little lights above your bed

Hey, keep an eye on what you say  
You think the words just walk away  
But they creep into my brain  
Sinking deep into my step, my step

I am the walrus, darlin'  
No one ever knows my name  
You are the chorus, sweet thing  
Never sing that song again

Hey, keep an eye on what you say  
You think the words just walk away  
But they're creepin' through my brain  
Sinkin' deep into my step

Hey, keep an eye on what you say  
You think the words just walk away  
But they're creepin' through my brain  
Sinkin' deep into my step, my step

My step, my step  
My step, my step  
My step, my step
