If I'm not a lion

And I'm not an island

If time is the diamond

Well all right

Got a weak pair of lungs

From a childhood disease

Will it ever come clean

Well all right

Tried to learn from the past

Keep my fist in my mouth

But they just keep falling our

Well all right

Well all right

If I'm not a lion

And I'm not an island

If time is the diamond

Well all right

Well all right
