

Low "Try To Sleep"

Visit "[Try To Sleep](#)" on MotoLyrics.com

You try to sleep
'Cause there's never enough
You try to sleep
But then you never wake up

Inside the dream
You take a step
You come to see
To see your debt

Try to sleep
Don't look at the camera
Try to sleep

You stretch your wings
You take a breath
You hide your feet
Embrace your head

A tragedy
No, there's never enough
You try to sleep
But then you never wake up

Try to sleep
Don't look at the camera
Try to sleep

But then you never wake up
But then you never wake up
You never wake up
Never wake up
[Incomprehensible], wake up
