You will get your reward
You will get your reward

(You will get your reward)
What is the whore you're living for?
(You will get your reward)
Is it so wrong to think there's more?

(You will get your reward)
There's always one worth waiting for
(You will get your reward)
What is the whore you're living for?

You fill the house with bells

But who can live like that?
You wanna speak like angels
But you can't

(You will get your reward)
What is the whore you're living for?
(You will get your reward)
What is the whore you're living for?

You will get your reward
You will get your reward
