You played the part of the one  
Who was taken down by gods  
All I could think about was how a guy  
Like me could fight them off

And when you finally  
Submitted to embarrassing capture  
Out of the corner of my eye  
I see my children in rapture

One night I got up and told my father  
There were witches in my room  
He gave me a baseball bat and said  
"Here's what you do"

When you have finally  
Submitted to embarrassing capture  
Take out that baseball bat  
And show those witches some pasture

All you guys out there  
Trying to act like Al Green  
All you guys out there  
Trying to act like Al Green, you're all weak

'Cause when you've finally  
Submitted to embarrassing capture  
All you guys out there  
Gonna wish you were Al Green
