"You See Everything"

Visit "[You See Everything](#)" on MotoLyrics.com

Quaking with the ground
See my smile
Watch you frown
Pick it up

Lay it down
Life's too short
To be your clown
Your clown

You see everything
But I don't

Lift up the veil
Get me out of this well
On the shore
We recline

Come on in
The water's fine
So fine

You see everything
But I don't
You see everything
But I don't

You see everything
But I don't
You see everything
But I don't

You see everything
You see everything
