So, this thing...  
This thing I hear is going down...  
You know, it ain't about punk...  
And it ain't about the scene...  
And you stupid fucking nerds  
are sitting...  
Sitting indoors, man.  
I'm out, on, the street, dig it?  
...And I'm out here on the street where it goes down,  
Not indoors,  
In the record stores,  
I'm making it go down here.  
Dig it?

Scraping the skylines with hypnotic observations  
Swooping and surfing over lyrical substations  
Embrace the flame again and again

Like passion and pain hand in hand with each other.  
Sliding, deeper I'm gliding  
Shooting.  
I am deeper than you.  
Bombs wired to my chest I'll lace the building with bugs  
Cos you'll always be behind me slip-streaming my buzz  
See me rocket off into the ozone layer  
Spiralling off into the ether  
Slip-streaming our buzz (X4)  
Into the ether  
Sliding, deeper I'm gliding  
Shooting  
I am deeper than you  
Into the ether
