All alone in an empty room
Nothing left but the memories of when
I had my best friend
And I don't know how we ended up here
I don't know but it's never been so clear
We made a mistake, dear
And I see
The broken glass in front of me
I see
Your shadow hanging over me
And your face, I can see...

Through the trees
I will find you
I will heal
The ruins left inside you
Cuz I'm still here breathing now
I'm still here breathing now
I'm still here breathing now
Until I'm set free
Goin quiet through the trees

And I remember how we used to talk
About the places we would go when we were
All and all that we were gonna find
And I remember watching our seeds grow
And how you cried when you saw the first leaf show
The love was pouring from your eyes

So can you see
The branches hanging over me
Can you see
The love you left inside of me
And my face
Can you see...

Through the trees

I will find you
I will heal the ruins left inside you
Cuz I'm still here breathing now
I'm still here breathing now

I'm still here breathing now
Until I'm set free
Goin quiet through the trees

Cuz you're not coming back
And you're not coming back
No-ooo, No-ooo, No
You're not coming back
You're not coming back...

Take my breath
As your own
Take my eyes
To guide you home

Cuz I'm still here breathing now
I'm still here breathing now
I'm still here breathing now
And I'm still here

Cuz I'm still here breathing now
I'm still here breathing now
I'm still here breathing now
And I'm still here

Cuz I'm still here breathing now
I'm still here breathing now
I'm still here breathing now
And I'm still here

And you're not coming back
And you're not coming back
Cuz you're not coming back
Until I'm set free
I'm goin quiet through the trees
