Just around the Corner (seefried/christodal)

Judy stands on the corner of Highland at night  
Two thousand bottles doesn't guarantee the meaning  
Of life  
She says, "I'd like to take the wheel but I just  
Can't steer"  
So can you take me to somewhere just around the  
Corner from here

I know a doctor for the proctor he says, "we both  
Get a cut"  
I guess that's all right I guess that's ok but...

He's talkin' 'bout his future like it isn't even  
Passing him by  
Some people keep on talkin' 'til they're living a  
Lie

And it's all just sorta  
Just around the corner from here  
So if you're lonely you should only  
Get your kicks before you disappear  
You can't take no magic pill  
There's a mansion on the hill  
And it's all just sorta just around the corner  
From here

I met a man on LaCienega when I was living in a  
Motel  
There was a girl that he was doin'  
And I knew that he was tryin to sell  
At night I hear her cryin so I run to the  
Suffering sound  
She says, "nobody can help, (my)baby caught me on  
The way down"

Tell your mother tell your father we won't stay  
Long  
It's just a matter of time before it all goes  
Wrong  
Then we'll go to "Mickey's Blue Room" in the

Village  
And we'll all drink wine  
So tell your mother for the record  
That I thought she was fine

And we're all just sorta just around the corner  
From here
