LA Forever (seefried/altman)

Baby we can't stay in LA forever  
Time has come and gone  
Should we be movin' on (from here)

7 years is not that long  
To stay here for the weather  
Came here as myself  
Hopin to leave as someone new

And I aint got nothin but time  
And you to fill my mind  
I am warm but I'm empty  
In this land of plenty  
What am I tryin to find

Repeat chorus

7 years of living  
Has only deepened lines upon my face  
And though it got me high  
You're the only thing that I find true

And I aint got nothin but time  
And you to fill my mind  
I am warm but I'm empty  
In this land of plenty  
What am I tryin to find

All the sunsets in the afternoon  
Are fading into circles around the moon  
The time I wasted lookin past the view  
When all I need is to be next to you

Repeat chorus

This time I don't mind  
I can feel the sunshine
