Tell the teacher (christodal/seefried)

Every day I climb the mountain
Every day I drive a car
Every night I turn the lights off
And try to find you in the stars

I believed that you could save me
From this suit that never fits
Sometimes I just want to quit

Tell the teacher I'm staying home
All I want is to be alone with you
In the kitchen, nothing's missing
I just close my eyes and I'll be fine
Like when you were mine

Every day I read the paper
Every day they read my mind
If I'm not just going crazy
Then you're sending me a sign

I believe you wold save me
And I know one thing for sure
If you come walking through the door

I'd tell the teacher I'm staying home
All I want is to be alone with you
In the kitchen, nothing's missing
I just close my eyes and things are fine
Like when you were mine

All I ever wanted was the chance to be alone
Without the saddest songs.
What went wrong?

If you ever change your mind
I want to do that one more time
Tell the teacher you'll be mine
Tell the teacher, etc...
