You are so wonderful and so true  
I could spent a lifetime makin' love to you  
Please, just a kiss every once in a while  
Oh, baby, baby, baby, you make my blood run wild

It's gonna last forever but it's up to you  
I wouldn't hurt you, baby, no, I'll be true  
To me you're just a child, it was a while I love to see  
that smile  
Oh, baby, baby, baby, you make my blood run wild

You're sweet little baby, so kind to me  
I can keep on lovin' you, I hope you love me too  
Please, just a kiss every once in a while  
Oh, baby, baby, baby, you make my blood run wild
