All I wanted to be...when i was sixteen
All I wanted to find...just one word that's sacred
All I wanted to be...with no bullshit scenes
All I wanted to find...and not have to fake it
All I wanted to find...now it's on my mind
All I wanted to be...Not much has changed since i was
sixteen

All I wanted to hear...The Song in my head
All I wanted to see...your sweet soul surreal
All I wanted to hear...like notes from the dead
All I wanted to see...Save Me Alice Neel!
All I WAnted to see...Something Revealed
All I wanted to hear...your sexy summer voice in my ear

A thousand shadows that the stars conceal
A million reasons for the way I feel

Savoury words and salty water
Bitter tears in sweet November
Dry bone and brittle leaves
And I always sleep with the light on

All I wanted to do...is clean up my room
All I wanted to say...There's no one above you
All I wanted to do...and whistle that tune
All I wanted to say...'cause you know I love you
All I wanted to say...I'm coming home soon
All I wanted to do...I gotta get a message to you
