LSG Lyrics

Door #1

1 - What's behind door number one
Could probably get the job done
What's behind door number two
Something special for you
What's behind door number three
Could fulfill your fantasies
All you got to do is chose
Either way you don't lose

I'd give anything and everything
To fall in love
I ain't no casanova
Baby, I'm ready for love
So, baby, hold on to me
Cuz I'm the special kind
I'll be your student
You can school me, school me tonight
Look behind door number one

2 - What's behind door number one
Could probably get the job done
What's behind door number two
Something special for you
What's behind door number three
Could fulfill your fantasies
All you got to do is chose
Either way you can't lose

I'll rub you the right way
Make you say mine, mine, mine
Mine, mine, mine, mine
If you can't stand the rain
Girl, let's get that move right
Cuz it's your body
Oh, I wanna fulfill
Don't think I'm half crazy
Baby, I'm, I'm for real

Look behind door number two, baby

Repeat 1

See I'll give all my love to you
I'm deep in your love, baby
There's a right way and a wrong way
To love somebody
You don't hear me baby
Don't leave me, baby
You got me so twisted, girl
I'll make you see
That nobody can do it better than me

Repeat 2

Nobody does it better than me, baby
Said I'll be the one
I'll get the job done, yeah
Anything you want me to
I'll give all my love to you
If you chose me
I can fulfill all your fantasies
I'll be there both day and night
Girl, I swear I'll treat you right
Door number one
Bet you can't take just one
Door number three
Bet you can't take just one
Door number one
Bet you can't take just one
Door number three

Repeat until fade
