What's behind door number one  
Could probably get the job done  
What's behind door number two  
Somethin' special for you

What's behind door number three  
Could fulfill your fantasies  
All you got to do is choose  
Either way you don't lose

I'd give anything and everything  
To fall in love  
I ain't no Casanova  
Baby, I'm ready for love

So, baby, hold on to me  
'Cause I'm the special kind  
I'll be your student  
You can school me, school me tonight  
Look behind door number one

What's behind door number one  
Could probably get the job done  
What's behind door number two  
Something special for you

What's behind door number three  
Could fulfill your fantasies  
All you got to do is choose  
Either way you can't lose

I'll rub you the right way  
Make you say mine, mine mine, mine mine mine, mine  
If you can't stand the rain  
Girl, let's get that move right 'cause it's your body

Oh, I wanna fulfill  
Don't think I'm half crazy  
Baby, I'm, I'm for real  
Look behind door number two, baby

What's behind door number one

Could probably get the job done  
What's behind door number two  
Something special for you

What's behind door number three  
Could fulfill your fantasies  
All you got to do is choose  
Either way you don't lose

See I'll give all my love to you  
I'm deep in your love, baby  
There's a right way and a wrong way  
To love somebody  
You don't hear me baby

Don't leave me, baby  
You got me so twisted, girl  
I'll make you see  
That nobody can do it better than me, hey baby

What's behind door number one  
Could probably get the job done  
What's behind door number two  
Something special for you

What's behind door number three  
Could fulfill your fantasies  
All you got to do is choose  
Either way you can't lose

Said I'll be the one  
I'll get the job done, yeah  
Anything you want me to  
(Whatever you want me to)  
I'll give all my love to you  
(Girl, I will do, oh yeah, yeah)

If you choose me  
I can fulfill all your fantasies  
(Oh yeah)  
(I'll be there both day and night)  
You don't have to worry 'bout a thing  
(Girl, I swear I'll treat you right)  
It's your choice, it's your choice, baby

(Oh no, no, girl)  
Door number one  
Bet you can't take just one  
Door number three  
(See you wanna have the best baby please)  
Bet you can't take just one

Door number one  
Bet you can't take just one  
(Ooh baby)  
Door number three  
Bet you can't take just one  
(I'll give you every thing that you need)  
(You need [Incomprehensible], baby, baby)

Door number one  
Bet you can't take just one
