

## Lsg "What Aobut Me"

Visit "[What Aobut Me](#)" on [MotoLyrics.com](http://MotoLyrics.com)

What about me baby  
What about our house (house)  
What about our home (home)  
What about our family (family)  
Yeah, yeah

Early one sunday morning  
I woke to see my baby missing from bed (yes i did, yes  
i did)  
And lying there on her pillow  
It was a letter and it read (ooh girl yeah yeah)  
We just don't talk like we used to  
We just don't do things we used to do, no no  
So i decided to just move on  
Cause the bond we once shared is no longer strong  
What about

What about our kids  
What about our home  
What about those dreams that we shared  
Girl this isn't fair  
What about our love  
What about our joy  
What about our dear family  
Ooh, what about me

As i read on it just brought me down  
And i questioned myself like where when how  
She could leave me this way  
She didn't fuss or complain  
And i'm thinking she's fine  
But she knew all the time  
She would leave us behind  
Broke that promise she lied  
Now my kids teary eyed  
Girl you could have compromised

What about our kids  
What about our home  
What about those dreams that we shared  
Girl this isn't fair  
What about our love

What about our joy  
What about our dear family  
Ooh, what about me

Why after all this time  
What was on your mind  
You didn't show a sign  
You weren't happy girl  
Now you crushed our world  
And you let go everything

What about our kids  
What about our home  
What about those dreams that we shared  
Girl this isn't fair  
What about our love  
What about our joy  
What about our dear family  
Ooh, what about me

What about our kids  
What about our home  
What about those dreams that we shared  
Girl this isn't fair  
What about our love  
What about our joy  
What about our dear family  
Ooh, what about me

What about me  
Yeah yeah  
What about  
What about  
Said what about  
What about me  
What about our house  
What about our kids  
What about our family, yeah yeah
