I want  
sensory communication  
you know  
some joy and agitation  
give me  
some emotional reaction  
I want to feel  
sentimental satisfaction  
[Bridge]  
so let's melt the walls of ice  
we have carved  
break down the barriers  
we don't have to let it  
go too far  
to get it back  
let's get back  
to emotion  
let's get back  
to the way it used to be

get back  
to emotion  
let's get back  
to you and me  
I remember  
emotive fascination  
but right now I feel no  
I feel no sensation  
of fire  
fire and the passion  
let's get back  
let's get back  
sentimental satisfaction  
repeat bridge  
repeat chorus
