No man is an island  
yet we swim this sea alone  
trying to make it to shore  
on our own  
but we can be better  
we can better  
whatever we'll weather  
together you and I  
there's strength in numbers  
let's get together  
you and I  
there is strength in numbers  
come on  
come together  
one house divided  
will surely crumble and fall  
but if we stand united

through it all  
then we will be better  
so much better  
whatever we'll weather  
together you and I  
repeat chorus  
we'll multiply  
the force inside  
then multiply  
the power and the love  
it's you and me  
baby  
repeat chorus
