"You Got It"

you got soul
but it's nothing at all
you've found meaning
but it's never enough

you've lost hope
yeah your feeling small
you might mean well
but thats never enough

oh no...

oh you want it
oh you got it
now you've got it
don't you want it?

you got luck
and all that you need
you want more now
but it's never enough

you've got love
but your letting it go
you feel strange now
cause it's never enough

oh no....

oh you want it
oh you've got it
now you've got it
don't you want it?
