All I see - a clock with red hair  
and I know - everything is real  
it's a trap - I'm caught in  
why don't you take my hands  
why don't you sleepaway from here  
where I'm caught in  
please  
I'm caught  
in this trap  
I pray you for my brain  
I pray you for my brain  
I pray you for my brain  
'cause all I see is the clock with red hair  
and I know everything is real  
it's a trap - I'm caught in - a trap  
why don't you take my hands  
why don't you sleepaway from here  
from this trap  
give me your mess  
turn me out take me away

All I see - is the clock with red hair  
and I know - everything is real  
it's a trap - I'm caught in  
give me your hands  
take me out from this trap  
see me  
I pray for my brain  
give me your hands  
take me out...
