Hyperspace to Neptune  
Quantum's based multi-cores  
Pax: atomic atarship  
Cryogenic source

Living new transistors  
Alpha et Omega so called  
New day for new frontiers  
Super Nova's leading force

Welcome through BH 1  
Now enjoy the views of Nos  
Substrate of dimension  
Here beyond the hole

Fatal nuclear collapse  
Between heart and brain of men  
Still we take time  
To discover ourselves

Hear God's primordial call  
Crossing gates of soul  
Experiment with real ascension

Fire beyond the stars  
Power of frozen sun  
Face now the cosmic revelation  
Energy revealed  
Source of immortal will  
For the cosmic revelation

There's no real answer  
Hidden between alien worlds  
Inside our spirit  
Lies the secret source

Fatal nuclear collapse  
Between heart and brain of men  
Still we take time  
To discover ourselves

Hear God's primordial call  
Crossing gates of soul  
Experiment with real ascension

Fire beyond the stars  
Power of frozen sun  
Face now the cosmic revelation  
Energy revealed  
Source of immortal will  
For the cosmic revelation

Fire beyond the stars  
Power of frozen sun  
Face now the cosmic revelation  
Energy revealed  
Source of immortal will  
For the cosmic revelation
