Dark Passion

In the dark your body against mine  
Bloodlust rises as we entwine

Riding waves of desire we reach the crest  
That forbidden is always the best

Jealous mistress , Possessive master  
We both are slaves  
To the passion , Dark passion  
That each other craves

Sink your teeth and take another bite  
Demon lovers can do it right  
It's so good to be bad we cannot stop  
Loves' running red , Lick every drop

Jealous mistress , Possessive master  
We both are slaves  
To the passion , Dark passion  
That each other craves

Drink from me as i have you  
Flesh and blood made one by two
