Eternity

Never turn away
When I need a touch of grace
Everlasting Love
Dwells within the darkest place

Now the sunset fades in gold
Endless nights we have to hold

Eternity is ours to share
Immortal love awaits us there
Holding to each other in the shadows
Of eternity

Always I am yours
Bound by blood and sacred vow
Tremble in my arms
Fear not I am with you now

Safely rest with coming dawn
Rise with me when day is gone

Eternity is ours to share
Immortal love awaits us there
Holding to each other in the shadows
Of eternity

Time is but a dream
We unify and transcend
Nothing but a dream
This love will never end

I'll always love you , Always love you
Now and forever
