

## Lucas Mckane "California"

Visit "[California](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Were on our way  
To California  
Were seeing all the things  
I've told you about  
(A million times)  
The sun is brighter than  
You've ever imagined  
And sometimes the skies  
Are ever so blue  
And when you see the ocean  
It crushes you

Now you have to remember  
Cause there's nothing better  
Than all these memories  
And the things we see  
And I'll always remember  
Being here with you  
With you

Were taking all the chances

To make our lives better  
Were always wanting something more  
Than what we ask for  
So just enjoy the views  
Of this southern weather  
Cause when its all gone  
You'll want it again  
(And you know that)  
Nothing this good  
Ever Lasts

Now you have to remember  
Cause there's nothing better  
Than all these memories  
And the things we see  
And I'll always remember  
Being here with you
