Its a constant worry  
That I'll never see you again  
Because when all I have is  
These past memories  
It worries me

Cause these times go by  
Way too fast  
And you know that nothing  
Good ever last

So wont you take me  
To the fields I use to know  
Where everyone  
Was still so young  
And all the times felt so right  
Where everyone  
Was still so young

Its a constant worry  
That I'll never  
Find my place in time

In this mixed up space  
Theres only time  
For one good race

So lets take it now  
And never look back  
Cause these time go by  
Way too fast  
And you that nothing  
Good ever last

So wont you take me  
To the fields I use to know  
Where everyone  
Was still so young  
And all the times felt so right
