Staying up
All night
Not caring about
All thats around
You know we should
Be doing something with our
Lives but we don't care
We'll just share...

All these memories
I don't want to lose them
Except for tonight

Staying up all night
Just to see the sun rise
You know what we'll be
Doing when this bottles gone
Ohh yeah, Ohh yeah

All these memories
I don't want to lose them
Except for tonight

Staying up
All night
Not caring about
All thats around
You know we should
Be doing something with our
Lives but we don't care
We'll just share...
