Pretty girl on every corner
Sunshine turns the sky to gold
Warm warm, it's always warm here
And I can't take the cold

Streets littered with diamonds
Everyone's glistening
This whole world shines so brightly
I can't see a thing

She's pretty as a picture
She is like a golden dream
Circles me with love and laughter
And I can't feel a thing

The sky's gonna open
People gonna pray and crawl
It's gonna rain down fire
It's gonna burn us all

The sky's gonna open
People gonna pray and sing
Oh, I can't feel a thing

She's pretty as a picture
She is like a golden dream
Circles me with love and laughter
And I-I I can't feel a thing

The sky's gonna open
People gonna pray and crawl
It's gonna rain down fire
It's gonna burn us all

The sky's gonna open
People gonna pray and sing
I can't feel a thing
No, I can't feel
