she was all lips and eyes  
touching me  
now you say you realize you can't trust me  
you're mad, you're hurt  
baby, I don't blame you  
I can't resist a flirt  
even when I aim to  
don't be upset  
baby, please don't fret

chorus:  
she made me love you more  
I forgot her the minute  
she walked out the door  
you wanna know what she did to me  
she made me love you more  
she made me love you more  
she was all hips and thighs  
lusting me  
I'll make no alibis, honestly  
deep in my heart you're the only one  
you say you've torn apart by what I have done  
I learned a lot  
believe it or not

chorus

she was fake where you are real  
I learned a lot about the way I feel  
don't wanna lose you over something like this  
baby forgive me

chorus 3x
