As I build my weapon it destroys me

You lied to me  
About where you were  
Don't you lie to me  
About what you saw  
Don't you lie to me

Pick up your knife and hand it to someone else  
Tonight  
After the fight there will be lots of blood for everyone

Tonight

Was it you?  
Who keeps funding this untimely operation  
Then you find yourself walking breathing in the casing  
Of the Man-Made weapon

It's in you it's in me  
Man Made Weapon
