"Me Over You"

Visit "[Me Over You](#)" on MotoLyrics.com

There is no sound in this cold room
There is no voice to confront you
They cut you off from your fever
They cut you off to deceive you

You made mistakes 'cause you knew things
You have a new chance to change it
I see the truth in the sunlight
I see the truth in your white lies

I,I,I know
I,I,I know
I,I,I know
I,I,I know

And if you want to be alive
You have to know you're alive
And if you want to be alive...

I trace your steps in this cold room
Leaving fingerprints all over your skin
I creep inside your mind
I creep inside your mind

So notice me,I am near you
Go on,take all I can give you
I see the truth in the sunlight
I see the truth in your white lies

I,I,I know
I,I,I know
I,I,I know
I know

I,I,I know
I,I,I know

I,I,I know

I,I,I know

Know...

Know...

Know...

And I know your thoughts

And I know you're lost

And I know your mind

And I know you've fallen

I know you're crawling

I know you're mine

And I know your thoughts

And I know you're lost

And I know your mind

And I know you've fallen

I know you're crawling

You know you're mine

And if you want to be alive

You have to know you're alive

And if you want to be alive...

I

I,I,I know

I,I,I know

I,I,I know

I know

I,I,I know

I,I,I know

I,I,I know

I,I,I know

I,I,I know

I,I,I know

I,I,I know you

I
