Pull me in like magic so enchanting  
Fearless monkey puzzle tree of branches  
Perfectly fashioned, so charming mysterious  
You are regarded with caution a special touch  
Dangerously suspect qualities, you think i need you

So clever, multisensory  
So clever reach into me, whatever you wish to believe  
I'm everything thats wonderful, your impossible dream  
So clever

Ominous you live behind a curtain  
Sneaking to and from your secret garden  
Drawing me into your world like a superstar  
I am a pearl that you add to  
Your crown of thorns, criminal curiosity, you think i  
need you

So clever, multisensory  
So clever reach into me, whatever you wish to believe  
I'm everything thats wonderful, your impossible dream  
So clever
